SUMMARY

Fresh Web Developer specializing in front end development. Experience regarding my own personal learning. Well-versed in numerous programming languages including Html, CSS, JavaScript, Node.js, Bootstrap, MongoDB. I wish to contribute towards organizational goals through my hard work, creativity and skills.

EXPERIENCE

Front-End Developer (React.js) Internship

Evolution Magazine

📅 03/2023 - 05/2023   📍 Lahore

- This is my remote internship during which I am learning about front-end development using HTML, CSS, JavaScript and React.
- I learned about how to create static and dynamic user interfaces through this internship.

MERN Stack Course

Arfa Tranings

📅 02/2022 - 02/2023   📍 Lahore

- I had the opportunity to learn about MERN development.
- Where I experienced how to develop dynamic websites with the help of reference templates and also learned about APIs and how to integrate them, which polished my skill further.

PROJECTS

Hotel Booking Application

🔗 https://github.com/ahmadkhalil-1/My-Hotel-Booking-Application

In this, I built the frontend using React.js and used Node.js and Express.js for the backend. I implemented user authentication with sign-in and sign-up features and also integrated the Stripe payment method. For the database, I utilized MongoDB Atlas, and I deployed this project on Vercel for free.

Movie Application

🔗 https://github.com/ahmadkhalil-1/Movie-Application

I have created a movie application using React.js for the front end, and it fetches movie data from an API. Please check it out.

Personal Portfolio
